	medicine was published under the title "Istorija Medicine" by Stanojevic. This was a publication of the Serbian Academy of Science. it contains much specific information about the history of medicine in Yugoslavia.	25X1
	tion about the history of medicine in lugosiavia.	25X1
	the following contributions to medical research made in the past 50 years are certainly noteworthy:	
	 a. Works on the pathogenesis and clinical aspects of scarlatina, abdominal typhus, and other infectious diseases (Dr Kosta Todorovic); b. Works on pathological anatomy and clinical aspects of TB (Dr /fnu/ Radosavljevic); c. Contributions in the field of general pathology and particularly the pathological physiology of cancer (Dr /fnu/ Joanovic and Dr /fnu/ Sahovic); d. Contributions in the field of microbiology and particularly mycology (Dr Sima Milosevic, who died as a hero during the last war); e. A series of very original contributions by Dr Vladimir Vujic in the field of organic neurology and psychiatry (original description of the phenomenon of "deja vu"; intudies; an entless y land particularly a recently published 	
	monograph on encephalitis larvata).	0EV4
		25 X 1
,	Prior to 1940 there was primary emphasis on microbiology, pathological anatomy, and clinical diagnosis.	25X1
		25 X 1
	It was not usual for many young men prior to World War II to have post- graduate training in other countries. In fact, only a very small number, exclusively from wealthy families, had an opportunity to study abroad.	
		25 X 1
	There are now five medical schools in Yugoslavia: Belgrade, Zagreb, Ljubljana, Sarajevo, and Skoplje. The last two were created after World War II (in 1946 or 1947	25X1
	the Rector and Dean of the Medical School in Belgrade. The Rector is Professor Dr Branko Sljivic, who is a full professor of anatomy, and the Dean is: Professor Dr Branko Stanojevic, who is a full professor of internal medicine. There is also a Medical High School in Belgrade with three separate faculties (Medicine,	25X1
*** *** ***	Pharmacy, Stomatology); Dr Sljivic is a Rector of the Medical High School. As for medical research is encouraged to the extent that conditions permit. Because of many more urgent needs there is a shortage of modern research equipment, but within these limits research in all the schools mentioned above is being encouraged more and	25X1
